OnBase®
by Hyland

One platform

Simplify your IT environment and reduce information silos across the order-to-cash cycle with OnBase, a single enterprise information platform for managing content, processes and cases.

OnBase provides these **capabilities on a *single* platform**:

Enterprise Content Management (ECM)
A market leader in ECM*

Case Management
An award-winning and analyst-recognized case management platform**

Business Process Management (BPM)
Includes a highly configurable workflow engine

Capture
A multi-channel capture software suite

Enterprise File Sync and Share (EFSS)
Available with ShareBase, a complementary offering designed to interact with OnBase

All solutions and applications built on OnBase are available on-premises or in the cloud and benefit from these **core platform strengths**:

Mobile
Native apps developed for iPad®, iPhone®, Android® and Windows® Phone

Integrations
Configurable tools to integrate with any application, including cloud-based applications

Security
Native security options protect your information at rest, in motion and in use

With OnBase "One" means "One." The OnBase platform is not a collection of separate products presented under one brand or offered by the same vendor. OnBase is truly a single technology platform sharing one database, content repository and codebase. OnBase gives you one platform to install, upgrade, secure, protect and integrate, instead of a diverse portfolio of different information technologies to manage.

Unlimited potential

The OnBase platform provides the foundation for solutions across your enterprise. OnBase has transformed thousands of organizations in multiple industries around the world, empowering them to become more agile, efficient and effective.

One platform offers you:

Unlimited potential solutions
By combining multiple capabilities on one highly configurable and scalable platform, OnBase supports multiple accounts receivable (AR) solutions in nearly any environment - from separate departments to centralized shared services centers. But our solutions are not one-size-fits-all. We bring decades of experience to the design, implementation and support of your solutions. Our consultants and global network of partners work with you to understand your challenges and configure the right OnBase solution for your specific needs.

Unlimited potential to grow
Whether starting with one stage of the order-to-cash cycle or deploying an enterprise-wide AR solution, it's easy to enhance existing solutions and add new departments as your needs change and your organization evolves. OnBase scales to support tens of thousands of users and trillions of documents on a single deployment, meaning you will never outgrow your OnBase system.

Unlimited potential for the future
With new OnBase version releases every year, your solutions benefit from the latest technology innovations and stay up-to-date with industry trends and compliance regulations. OnBase was designed from the ground up to be the most comprehensive, innovative, intuitive, best-performing enterprise information platform on the planet.

To see if OnBase is right for you, visit **OnBase.com/AR** today.
