fi-7600 Production-class ADF document scanner

Incredible speed and flexibility

- Accurately powers through your documents at up to **200 images per minute**
- High-capacity **300-page Automatic Document Feeder** suitable for continuous scanning
- Accepts a **wide variety of documents**: thin paper, plastic cards, long documents, and envelopes
- Special mode to scan **extra-thick documents**
- Two independent control panels**, one on each side, allow the fi-7600 to fit any workspace

Protect your paper – and the information on it

- Straight paper path** reduces the stress on your stack of documents during scanning
- Forgot to remove a staple? **Intelligent Sonic Paper Protection** "listens" to paper flowing through the machine and stops if a misfeed occurs, reducing damage to your documents
- Intelligent MultiFeed Function** allows easy manual bypass for sticky notes, taped receipts, and labels that can slow down batch scanning
- Ultrasonic Double Feed Detection** identifies sheets stuck together so you don't miss an image
- Skew Reduction** significantly improves feeding performance and ensures that your whole document gets accurately captured from edge to edge

Clean up and optimize scans without changing settings in advance

PaperStream IP (PSIP) is a TWAIN/ISIS®-compliant driver with smart features including:

- Assisted Scanning** lets you choose the best image cleanup through visual selection
- Advanced Image Cleanup** corrects the toughest documents, including colored and decorated backgrounds, to improve OCR and reduce rescans
- Auto Color Detection** identifies the best color mode for the document
- Blank Page Detection** removes blank pages automatically
- Front and Back Merge** places two sides of a page into one convenient image

PaperStream Capture makes scanning fast and easy

Eliminate the learning curve. PaperStream Capture's user-friendly interface allows easy operation from start to finish. Changing scan settings is simple. Indexing and sorting features include barcode, patch code, and blank page separation – making batch scanning a breeze for operators.

Make it even better with PaperStream Capture Pro

Optional PaperStream Capture Pro software offers an improved feature set with superior front-end capture, image processing, and options for enhanced data extraction and indexing for release.

Centralized fleet management

Includes Scanner Central Admin Agent to remotely manage your entire fi Series fleet. Effectively allocate your resources based on scan volume, consumables wear, and more.
